**New Size Status Launched for 2010**

The Status is one of a long line of innovative products developed by Carron's in house design studio. Since its launch, this bath has been hugely popular. The rounded corner ensures that this generously proportioned bath can fit into even quite small bathrooms. The single piece panel ensures the bath looks perfect from any angle.

When first launched, the Status was only available in a 1700 x 800 option. We are delighted to announce that from 2010 this bath will also be available in a 1700 x 725 option. Both the bath and single piece panel are available in regular or Carronite™ specification.

The Status 17.80 and the new 725 are available through our usual distributors.
