

Halcyon Square

Halcyon red & black

11th March 2009

Halcyon Freestanding Goes Square

Carron are delighted to announce some additions to the elegant Halcyon design. This bath is now available in a square design, complementing the current trend towards angular shapes in bathroom designs. The Halcyon square is manufactured in Carron's unique Carronite™ specification, ensuring the perfect combination of strength and beauty.

In addition, Carron are also launching coloured versions of this stunning bath. Pictured above are the black and red colours available. Please contact us to discuss any other colour requirements.

The Halcyon in oval, square, coloured or white makes a stunning centrepiece in any bathroom.
